Title: Liquidity Contingency Funding Plans, 12 CFR 741.12.

Type of Review: Extension of a currently approved collection.

Abstract: The 2008 financial crisis demonstrated the importance of good liquidity risk management to the safety and soundness of financial institutions. In conjunction with the OCC, FRB, FDIC, and Conference of State Bank Supervisors (CSBS), adopted the

Interagency Policy Statement on Funding and Liquidity Risk Management in March of 2010.

In October 2013, to clarify NCUA's expectation on the Interagency Policy Statement and to reduce the regulatory burden on small credit unions, NCUA codified the requirements for Liquidity and Contingency Funding Plans as § 741.12. The rule establishes a three tier framework for federally insured credit unions, based on asset size. Federally insured credit union with assets under \$50 million must maintain a basic policy, federally insured credit unions with assets of \$50 million and over must maintain a contingency funding plan, and federally insured credit unions with assets over \$250 million must maintain a contingency funding plan and establish a federal liquidity contingency source.

Affected Public: Private Sector: Not-for-profit institutions.

Estimated No. of Respondents: 5,164.

Estimated No. of Responses per Respondent: 1.

Estimated Total Annual Responses: 5,164.

Estimated Burden Hours per Response: 0.82.

Estimated Total Annual Burden Hours: 4,247.

Reason for Change: Adjustments are attributed to current updated data since the last previous submission.
